GIRLS WHO CODE CLUBS
BRING GIRLS WHO CODE TO YOUR COMMUNITY!

Girls Who Code Clubs is an after-school or weekend program offering that is democratizing access to computer science education for 6th-12th grade girls nationwide. Learn what you can do to bring Girls Who Code Clubs to your community and empower girls with the computing skills to pursue 21st century opportunities.

* The deadline to apply to become a Girls Who Code Clubs Host is June 27.
Apply at www.girlswhocode.com/clubs today!

WHO
Girls Who Code Clubs is a turnkey computer science program, meaning anyone affiliated with a community organization -- including girls, school administrators, community leaders, and teachers -- can start a club! Here are the key players that make a successful Girls Who Code Clubs Team:

<table>
<thead>
<tr>
<th>Host Location</th>
<th>Club Founder</th>
<th>Club Members</th>
<th>Club Advisor</th>
<th>Club Instructor</th>
</tr>
</thead>
<tbody>
<tr>
<td>School, community center, or other facility with reliable access to internet and computers for each Club Member.</td>
<td>Girl with a passion for technology who will serve as a “Student Ambassador” and recruit her friends to join the Club.</td>
<td>Girls 6th-12th grade who are curious, creative, and want to learn to code. Clubs require 15+ members.</td>
<td>Adult (male or female) affiliated with Host Location, responsible for supervision, logistics, and liaising with GWC.</td>
<td>Tech industry professional (male or female) recruited and trained by Girls Who Code. Club Advisors are not responsible for instruction.</td>
</tr>
</tbody>
</table>
WHAT
Girls Who Code Clubs offers a fun and engaging exposure to computer science. Our curriculum provides monthly, project-based activities and the opportunity for students to build mobile apps and websites. Girls Who Code Clubs outcomes include:

- Increased exposure to, interest in, and understanding of computer science
- Improved technical and soft skills for the 21st century
- Membership to a national network of Girls Who Code -- an online and offline community of girls who share a passion for tech and support one another locally, in college, and beyond

WHERE
Girls Who Code Clubs can be held anywhere with access to computers and reliable internet for each girl -- including schools, libraries, faith-based centers, labor unions, and technology companies.

WHEN
Our curriculum adapts to meet girls where they are -- both in terms of experience level and scheduling availability. Girls Who Code recommends 8 hours per month of instruction.

WHY
By 2020, 1.4 million jobs will be available in the computing related fields but girls are being left behind. Girls Who Code Clubs inspire, educate, and equip girls with the 21st century skillset they need to change the world.

KEY RESPONSIBILITIES

HOST LOCATION
- Providing access to reliable internet and computers for each Club Member
- Recruiting a minimum of 15 Club Members to participate in the program

CLUB ADVISOR
- Providing onsite logistical support as representative of the Host Location
- Marketing the club to girls and reminding Club Members of meetings
- Coordinating with Club Instructor and Girls Who Code staff
- Submitting attendance to Girls Who Code staff

CLUB INSTRUCTORS
- Delivering Girls Who Code Clubs curriculum onsite at the Host Location during a mutually agreed upon schedule. (Girls Who Code recommends 8 hours/month.)
- Attending a Girls Who Code Teacher Training session in advance of the Club launch
- Working with Girls Who Code staff to organize activities that expose girls to the tech world, including field trips to tech companies and bringing in guest speakers
- Submitting completed student projects and code to Girls Who Code staff
- Distributing and submitting pre-Club and post-Club surveys as requested by Girls Who Code staff
