Adult education programs in all 50 states, DC, and U.S. territories are authorized under Title II of the Workforce Innovation and Opportunity Act to assist adults in building skills and earning credentials that lead to postsecondary education, sustainable employment, and economic self-sufficiency.

There is a massive reallocation underway in the economy that is triggering a great reassessment of work in America from both the employer and employee perspectives (The Washington Post, 04 Sept. 2021). Adult Education aligns education and job training to employer needs and provides learner-workers with essential skills to be future-ready for the new normal.
